PROFESSIONAL SUMMARY

Full Stack Developer who builds **AI-powered web applications** with **React, Next.js, TypeScript, and Node.js**. Delivers **responsive frontends and REST API backends** with **FastAPI and Express**, integrates **LLM APIs**, and secures applications with **JWT authentication and role-based access control**. Built **milestone-based payment workflows with Razorpay** and **real-time collaboration with Socket.IO**, backed by **PostgreSQL and MongoDB data models**.

TECHNICAL SKILLS

- **Languages: JavaScript** (ES6+), TypeScript, **Python, SQL**, HTML5, CSS3
- **Frontend:** React.js, **Next.js**, Tailwind CSS, Material UI, **Redux** Toolkit, React Query, Vite
- **Backend:** Node.js, Express.js, **FastAPI, REST APIs**, **Celery**, Pydantic, Socket.IO, WebRTC, **JWT**, **Rate Limiting**
- **Databases: PostgreSQL**, MongoDB, MySQL, **Redis**, Supabase, Firebase, **Prisma ORM**, Alembic
- **AI / APIs & Services: OpenRouter**, **Anthropic**, OpenAI, Hugging Face, **Razorpay**, Stripe, **Cloudinary**, Resend
- **DevOps / Tools: Git, Docker, Vercel, Render, Chrome DevTools**
- **Core Concepts: DSA**, System Design, REST APIs, **Database Design**, Auth & Access Control, Caching, **Async Processing**, State Management
- **Testing & CI/CD:** Jest, **Integration Testing**, ESLint, **Build Checks**, **GitHub Actions**, **Trivy**

PROFESSIONAL EXPERIENCE

NexGeTech | AI Application Developer (Full-time) 08/2026 – Present | Apex, North Carolina, USA

- Develop **AI-powered automation modules** for an SMB platform, supporting **8 automation workflows** that reduce repetitive manual tasks.
- Build **CRM dashboards** and customer-management workflows using **React, Next.js, FastAPI, and PostgreSQL** for **8 customer accounts**.
- Translate product requirements into functional features, integrating **REST APIs** and maintaining reliable frontend–backend data flow across **10 features**.
- Design **CRM system architecture** across the frontend, API, and database layers to support scalable customer-management workflows.

Summer Atlantic Capital LLC | Frontend Developer Intern (Part-time) 02/2026 – 09/2026 | Newark, Delaware, United States

- Developed **20 responsive React.js and Next.js screens** using **TypeScript and reusable components**, translating Figma designs into production-ready interfaces.
- Integrated **16 REST API endpoints** connecting frontend workflows with backend services and AI-powered features.
- Diagnosed and resolved **UI and API integration issues across 3 releases**, improving application stability and reliability.

upDate Education Technology Pvt Ltd | Web Development Intern 11/2025 – 01/2026 | Raipur, Chhattisgarh, India

- **Developed and enhanced website features**, improving **UI, navigation, and functionality** across **18 pages**.
- Tested and debugged **iterative changes**, improving **application quality** through **5 rounds of feedback-driven refinement.**

PROJECTS

AI-Powered Cloud ERP Suite 05/2026 – 07/2026

GitHub | Tech: **Next.js 16, React 19, NestJS 11, Prisma 7, PostgreSQL 17, Redis 7, Docker, pnpm, Turbo**

- Built a **multi-tenant AI-powered ERP platform** covering **finance, HR, supply chain, project tracking, and business intelligence**, using **Next.js, React, TypeScript, NestJS, Prisma, and PostgreSQL**, with **tenant isolation** and **role-based access control** across modules.
- Secured API access with **JWT authentication, refresh token rotation, Redis-backed token blacklisting, and RBAC guards**, and structured a **Turborepo and pnpm monorepo** so the frontend, backend, and shared packages can be developed independently.
- Designed the **database layer** with a **Prisma schema, indexed models, soft delete, migrations, and seed scripts**, and ran **PostgreSQL, Redis, and other services locally with Docker Compose**.
- Set up **CI/CD with GitHub Actions** for **linting, unit and integration tests, build checks, and Trivy container scanning**, and built an **AI demand forecasting service** with **FastAPI and Prophet**, with predictions cached in **Redis**.

SkillSphere | Intelligent Hyperlocal Freelance Ecosystem 03/2026 – 05/2026

Live: https://skillsphere-phi.vercel.app | GitHub: Bhawana0218/SKILLSPHERE: INTELLIGENT HYPERLOCAL FREELANCE ECOSYSTEM

Tech: **React, TypeScript, Node.js, Express.js, MongoDB, Redis, Socket.IO, Hugging Face, Razorpay, Stripe**

- Engineered a **full-stack freelance marketplace** with **Admin, Freelancer, and Client roles**, covering the full **project lifecycle** from posting and matching to milestone delivery, and **AI-driven skill matching** powered by **Hugging Face**.
- Secured the platform with **JWT authentication**, **Google OAuth**, **two-factor authentication**, and **role-based access control (RBAC)**, and integrated **Razorpay milestone-based payments** to handle **project transactions** securely.
- Built **real-time collaboration** with **Socket.IO** and **Redis**, adding **transaction tracking** and **audit logging** for complete **project and payment traceability** across all user roles.

EDUCATION

B.Tech in Computer Science | Birla Institute of Applied Science, Bhimtal 2023 – 2027 | Nainital, Uttarakhand

CGPA: **8.5** Relevant Coursework: **DSA, Algorithms, DBMS, Operating Systems, Computer Networks**

Class XII: 85% (2023) | Rajeev Gandhi Navodaya Vidyalaya 03/2023 | Kotabagh, Nainital, Uttarakhand

HACKATHONS

Smart India Hackathon 2026 | Team Cipher | PS 26002

- Proposed an **AI-powered logistics platform** for **SIH 2026** that combines **weather, flood, landslide, and road network data** to predict **travel risks** and recommend **safer emergency routes** for transporting **medicine, food, and relief supplies** across the **North Eastern Region**.

LEADERSHIP & VOLUNTEERING

- **Sustainability Initiative Lead** | Coordinated **50 volunteers** on a campus project, managing **delegation and timelines**.
